SUMMARY

A diligent Computer Science student with a passion for problem-solving and a strong foundation in programming languages and algorithms. Proficient in web and app development, eager to apply theoretical knowledge to practical projects and contribute effectively to software development teams.

EDUCATION

FAST - National University of Computer and Emerging Sciences, Lahore
Bachelors in Computer Science (BSCS) — 2021 - 2025

Lahore College of Arts and Sciences (LACAS)
A-Level in Computer Science — 2019 - 2021

EXPERIENCE

Green Origin Pvt. Ltd.
Software Engineering Intern | .NET Core, C#, SQL — Jul - Aug 2024
- Developed small scale full stack web apps using .NET Entity Framework Core MVC (Model-View-Controller).
- Implemented projects in microservices and containerized them using Docker.
- Worked on Web APIs and REST APIs.

PROJECTS

Final Year Project - Virtual Try Room — 2024 - 2025
- Currently developing a virtual try room application for users to try on clothes before buying them online.

Food Delivery System Web App — 2025
- Currently developing a MERN app with user authentication, real-time order tracking, and payment integration.

AutoVault - Car Maintenance App — 2025
- Developed a full stack React Native mobile app for users to track their vehicle's logs and services.

Cricketer Auction Price Predictor — 2024
- Trained an AI model which could predict a cricketer's auction price for a particular league based on their stats.

User Activity Monitoring Tool — 2024
- Developed a malicious game which ran a malware in the background, breaching the user's security and privacy.

Image Editor — 2024
- Developed an android image editor application using Kotlin and Jetpack Compose.

Gym Database System — 2024
- Developed a web app for fitness enthusiasts to log in and track their strength training sessions.

Property Buying and Selling Web App — 2023
- Developed a web app for my 5th semester project using Java.

TECHNICAL SKILLS & EXPERTISE

- **Web Development** - HTML, CSS, JavaScript, React.js & .NET EF Core, Java, Node.js
- **App Development** - React Native, Kotlin (Jetpack Compose)
- **C#, C, C++, Python**
- **Assembly Language**
- **Database** - mySQL, MS SQL Server, Firebase, MongoDb

EXTRACURRICULAR EXPERIENCES

- **Job Fair 2024** - Head Team Infrastructure
- **SOFTEC 2023** - Team Media & Team Software Project Competition
- **Future Fest 2023** - Team Media
